

Summary

Results-driven Software Engineer with hands-on experience in full-stack web development, API design, and cloud deployment. Proficient in building responsive and scalable applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in designing and integrating RESTful APIs, managing both relational and non-relational databases, and deploying applications on AWS (EC2, S3, RDS). Adept at debugging, performance tuning, and resolving production issues to ensure robust and reliable systems. Collaborative team player with a strong focus on writing clean, maintainable code and delivering high-quality software solutions that meet business needs.

Work Experience

Full Stack Developer

Velocity Technologies Limited | Surrey, BC | Oct 2024 - Present

A global technology firm delivering enterprise software solutions.

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), delivering responsive and scalable solutions for client and internal platforms.
- Designed and implemented RESTful APIs using Express.js and integrated third-party APIs for extended application functionality.
- Built dynamic front-end interfaces using React.js, incorporating routing, state management, and API integration for real-time data updates.
- Deployed and maintained applications on AWS, utilizing services like EC2, S3, and RDS for hosting, storage, and database management.
- Participated in application debugging, performance tuning, and production issue resolution to ensure system stability.
- Worked with both relational (MySQL, PostgreSQL) and non-relational (MongoDB) databases, handling schema design, data modeling, and query optimization.
- Collaborated with cross-functional teams to plan and review application architecture, resulting in clean, maintainable, and modular codebases

Certifications

Introduction to Data Science Specialization (IBM)

- Gained hands-on experience in data cleaning, visualization, and exploratory data analysis using Pandas and Matplotlib.
- Developed a strong foundation in statistical modeling and machine learning basics.
- Understood the role of data science in business and real-world applications.

RPA Developer Training - UiPath (IBOTIX)

- Designed and implemented automation workflows using UiPath Studio.
- Automated repetitive tasks such as data extraction, report generation, and email handling.
- Learned best practices for deploying and managing RPA solutions in enterprise environments.

Education

- **Bachelor of Computer Applications (BCA)**, 2021-2024 – JIMS - India

TECHNICAL SKILLS AND TOOLSET

- **Programming Languages:** JavaScript, TypeScript, Python, Java, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful API development, Python (Flask - basic)
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Cloud & DevOps:** AWS (EC2, S3, RDS), Git, GitHub, Bitbucket, Jenkins (basic), Postman
- **Tools & Platforms:** VS Code, IntelliJ IDEA, Chrome DevTools, Figma (basic)
- **Other:** API Integration, JSON, JWT Authentication, MVC Architecture, Agile/Scrum methodology
- **Testing Tools:** Selenium, TestNG, Rest Assured, Jest, React Testing Library, Cypress
- **Development Tools:** VS Code, IntelliJ IDEA, Postman, Jenkins
- **Version Control & Collaboration:** Git, GitHub, Bitbucket, Jira, Confluence, Slack
- **Other Skills:** Strong UI/UX fundamentals, CSS architecture, performance optimization, AI-assisted development (Windsurf), Agile methodology
- **Soft Skills:** Analytical thinking, attention to detail, strong communication, adaptability in fast-paced environments.
